COVER MESSAGE

Dear Judge Evans;

I have not heard further from your or Mr. Connelly, whom you directed me to weeks ago regarding a viable position on attys using laptops at the Daley Center.

This is ridiculous. While you two are fiddling, your courts are buring with corruption!

It is important that you two IMMEDIATELY issue a missive that attorneys can blog, take notes, whatever on laptops, and this is esp. important where corruption is patently obvious.

See the blog at www.marygsykes.com, see the attached table of torts. More than half that file is missing! Who is going to care and do anything regarding this travesty of justice?

Sincerely,

JoAnne denison

PS - you might want to think about acting now, because KD just got a call from a NY Times reporter for an interview on Sykes.
